When creating a Ticketnet source, the above information is requested.

We can choose a representation.

Click on the chosen item and then confirm.

Loading tickets may take several minutes.

Ticketnet sources are configured with a user code and a third-party and partner identifier provided by Ticketnet. The Ticketnet administrator configures the elements that can be controlled and provides the credentials. We are using version Trium v2_1_0

The automatic source update parameters are defined in this source.
